

ACTIVE FROM THE CORE

SWISS | PLY

engineered by alinox AG

DISCOVER THE SYNERGY OF STAINLESS STEEL AND ALUMINUM COMBINED

Energy efficiency = material technology + process technology

10x
energy efficient

50%
lighter & stiffer

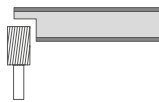

» Multiply material offers unique opportunities for today's challenges. «

SWISS-PLY is as hygienic as stainless steel, combined with the thermodynamic characteristics of aluminum. Now you have the opportunity to be up to 10x more energy efficient at less than half the weight. That is why we call SWISS-PLY our „core performance material“.

Find out what we can do together when we innovate from the center of the composite.

Shape your solutions

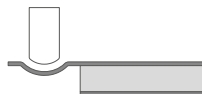

Material technology is nothing without the process technology to shape solutions to your specifications. Together with our trusted partners we are offering you these component solutions:

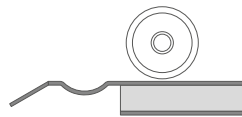

Machining

Welding

Professional Forming

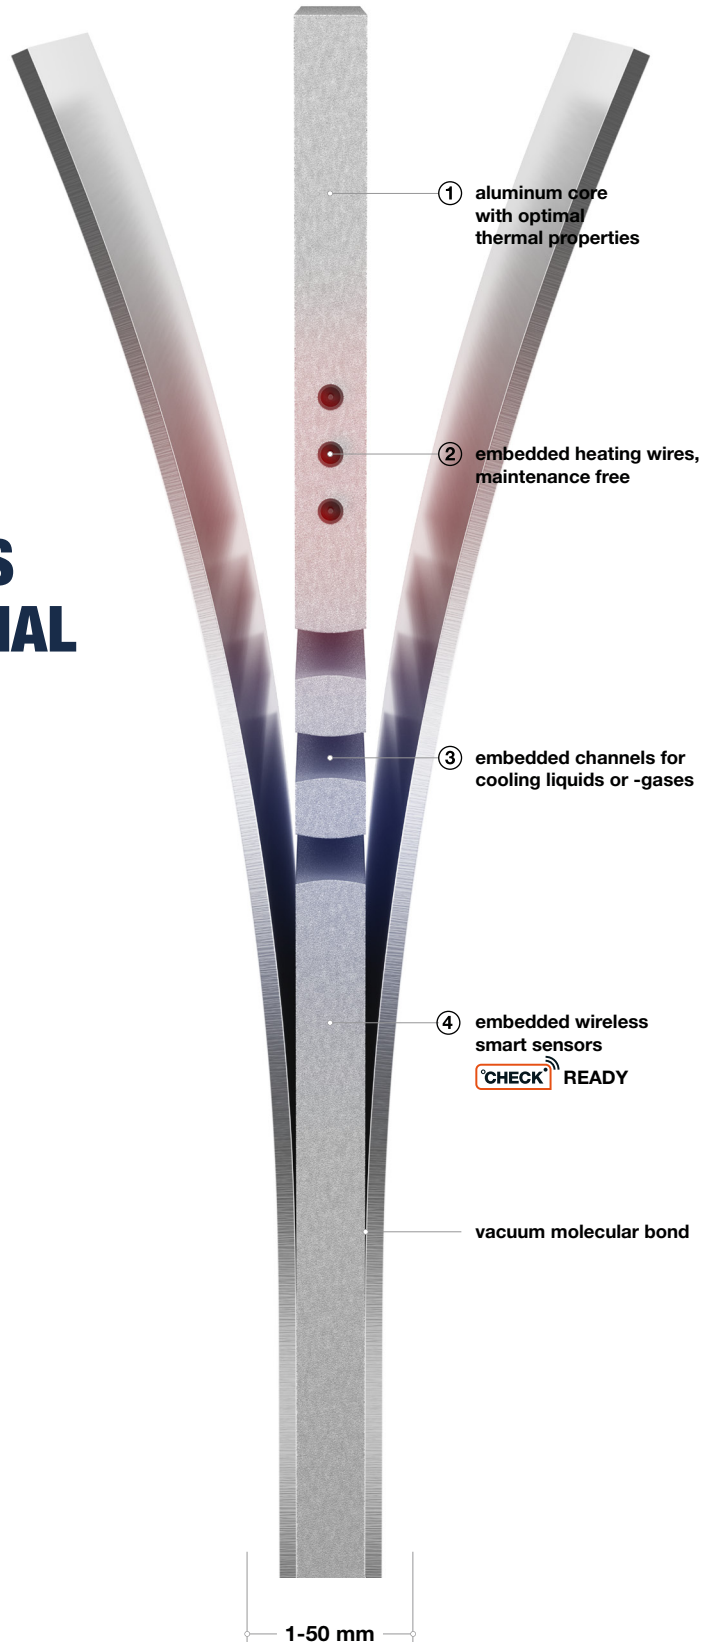

Surface Finishing

SWISS | PLY

4 OPPORTUNITIES FOR YOUR THERMAL SOLUTIONS

Patented Technologies

Watch the movie.

SWISS-PLY PERFORMS:

Solar Industry	Components
Electric Appliances	Heating Elements
Professional Kitchen Equipment	Griddles
Heating Systems	Automatic Controlled Temperature
Galvanic Industry	Anodes
Cryogenics	Cooling Plates
Construction	System Components
Printing Industry	Press Plates
Medical Industry	X-Ray Window
Housewares	Cookware
Chemical Industry	Heat Exchanger Plates
Navigation	Transition Joints
Automotive Industry	Components
Aircraft Industry	Components

YOUR INDUSTRY?

Contact us to develop hygienic thermodynamic solutions together.
